EDUCATION

BE Electrical & Electronics Engineering

Velammal Institute of Technology

Currently in 3rd Year

CGPA: 8.12

TECHNICAL SKILLS

- AI Tools: ChatGPT, Lovable, Cursor AI
- Full-Stack & Web Application Development
- Mobile App Development
- React, TypeScript, Tailwind CSS
- Supabase & Cloud Backend
- ESP32 & Arduino UNO
- IoT Application Development
- AI-Based Solution Development
- App Publishing

CERTIFICATIONS

- NPTEL Cloud Computing – Silver Certificate (80%)
- Arduino UNO Workshop Certificate
- Stampers Hackathon – Winner Certificate

LANGUAGES

Tamil • English

INTERESTS

AI, Software Development, Full-Stack Development, Mobile App Development

PROFESSIONAL SUMMARY

Third-year BE Electrical & Electronics Engineering student with a CGPA of 8.12 and hands-on experience building AI, full-stack, mobile, IoT, and hackathon solutions. Experienced in rapid product development, AI integration, and deploying functional prototypes with modern web technologies.

PROJECTS

PDF Master Pro – AI-Powered PDF Reader

Built an AI-powered PDF productivity app with summarization, PDF Q&A, translation, offline reading, bookmarks, scanning, split/merge, and image-to-PDF tools.

Live: pdfmasterproai.lovable.app

AI Rescue Force – Swift Response Hub

Developed an AI-native emergency response platform connecting citizens, control rooms, ambulance, police, fire services, and hospitals with intelligent dispatch and real-time incident tracking.

React • TypeScript • Tailwind • Supabase • AI • OpenStreetMap

ExamSense – AI Exam Intelligence

Created an AI exam-preparation platform covering document-based tutoring, question generation, mock tests, mistake analysis, weak-topic detection, and adaptive study planning.

React • Supabase • AI • RAG

Crop Wise – Smart Crop Advisory System

AI-assisted crop advisory solution providing crop recommendations, weather and market insights, pest/disease guidance, multilingual voice interaction, and farmer-focused decision support.

Team Nextron • Prasunethon 2.0

Smart Health Monitoring System

IoT-based health monitoring prototype using ESP32/Arduino with real-time alerts.

Chess App

Offline chess application published on Amazon Appstore and itch.io.

ACHIEVEMENTS

- Stampers Hackathon – Winner for the Crop Wise Smart Crop Advisory System.
- Smartathon 2.0 – Top 10 Team.

INTERNSHIP EXPERIENCE

Daikin ACDC – 5-Day Internship

Five-day internship experience at Daikin ACDC.

North Chennai Thermal Power Station (NCTPS) – Stage II

15-Day Internship — TANGEDCO, Tamil Nadu. Exposure to thermal power plant operations, electrical systems, generators, turbines, transformers, and industrial safety practices.
